## THE LATEST NEWS.

### ACCIDENTS AND INCIDENTS FROM ALL SECTIONS BY TELEGRAPH.

A Day's Record of the Country's Crimes and Casualties and Foreign Gossip.

### A RESUME OF ELECTION NEWS.

Returns from California indicate that the Democrats have the Legislature. If this is so, George Hearst will be the next United States Senator.

The Democrats have elected the Governor in Colorado and the Legislature is Republican.

The West Virginia Legislature is Democratic by nine on joint ballot.

The Legislatures of Indiana and New Jersey appear to be Democratic.

If California, Indiana and New Jersey elect Democrats to the Senate, that body will stand after March 4th, 1887, Democrats, 37; Republicans, 37; with Van Wyck and Riddleberger unaccounted for.

Van Wyck has carried the Legislature of Nebraska in spite of the opposition of leading Republicans, and is an Independent. Riddleberger's course in the last Congress is well known. Both of these Senators are very friendly to the Administration, and cannot be counted on by the Republicans to sustain them in all measures. So there is some hope that the Democrats will control both houses of the next Congress.

### The Labor Question.

PITTSBURGH, PA., November 6.—It was rumored to-day that the employees of the Cleveland and Pittsburg railroad had presented a demand for an advance in their wages. It has been known for some time that the question was being agitated. They based their claims on the settlement of the demand of the employees on the New York, Pennsylvania and Ohio road. It was further stated that the petition asked that a decision be rendered by November 10th. A general official of the road was interrogated and admitted that such a request had been made by one or two classes of employees, but denied that the demand was general. Whether or not the advance will be granted the gentleman declined to say.

SHAMOKIN, PENN., November 6.—There has been no settlement of the strike at the Excelsior colliery, and the operator and his fifty miners seem equally determined. It is feared next week will witness a general strike in the valley, though the Mount Carmel men say they will not go out. Last night the 800 miners of the Cameron colliery, by secret ballot, unanimously determined to strike at 12 o'clock next Monday, unless the Mineral Mining Company gave the 10 per cent. advance.

### Sauce for the Goose, &c.

CHICAGO, November 6.—A Washington special to the *Times* says: "The friends of District-Attorney Benton, of Missouri, who was summarily removed for violating the President's order prohibiting office-holders from making campaign speeches, are inquiring what is to be done with Postmaster-General Vilas, who did the same thing. Senators Vest and Cockerill propose to submit to the President copies of newspapers containing political speeches of Vilas."

### The Usual Cry of Fraud.

CHICAGO, November 6.—Daniel F. Gleason, who ran against Frank Lawler for Congress in the Second district, made some startling assertions to a United Press reporter this morning. Mr. Gleason was in the election commissioners' rooms early and said that before the day was over he would produce affidavits from men who would swear that they saw election judges in some of the precincts erase figures credited to Gleason and put in smaller ones.

### The Office Sought the Man.

WASHINGTON, D. C., November 6.—It is semi-officially announced that the President has offered the position of Surgeon-General of the army to Lieutenant-Colonel Moore, now stationed in San Francisco.

He is said to be the only officer of the Medical Corps above the grade of major who has not presented his application and also brought influence to bear upon the President in his behalf.

### The Broken Bank.

NORFOLK, November 5.—The United States Circuit Court was engaged yesterday in the trial of George M. Bain, Jr. It is said the prosecution will prove that Bain, as cashier of the broken Exchange National Bank of this city, misapplied \$451,386.09 of the funds of the bank. There are twenty-four indictments against the officers of the bank. Each contained fifteen or more counts.

### Supposed Suicide.

JOLIET, ILL., November 6.—The barn of Henry Minge, a rich German farmer living near Matteson, twenty miles east of here, was discovered to be in flames yesterday morning. His sons, awakened by the light, hurried to the scene, and upon entering the burning building found the lifeless body of their father lying upon the barn floor with his clothing on fire. The body was dragged from the flames to a place where the burning clothing could be extinguished. The members of the family also discovered blood on the bosom of the man's clothing, and that there was a gaping wound in the breast. The legs and one arm were burned to a crisp, and life was extinct when he was found. The barn and contents were burned to the ground, and considerable mystery surrounds the case. The family state that they consider it a case of suicide.

### Wholesale Killing.

COLUMBUS, IND., November 6.—While working with a derrick putting in the frame work for a water-tank the rope holding the derrick in an upright position was snapped by being caught by the smoke-stack of the Jeffersonville, Madison and Indianapolis train.

The derrick and heavy timber fell on the heads of five men, killing Jack Weaver, of this city, and crushing the skull of Milt Robinson, of Seymour, and seriously injuring William Pennison, William Elliot and Charles Whipper, all of this city. Robinson will probably die.

### A Fortunate Accident.

EAU CLAIRE, WIS., November 6.—A fearful explosion occurred yesterday in the Valley Lumber Company's mill by the bursting of a ponderous fly-wheel weighing twenty tons. The force of 200 employees were thrown into the wildest confusion by the fragments flying in every direction, many pieces weighing several hundred pounds. Mysteriously no person was seriously injured, though the engine and house was somewhat wrecked. Total loss will reach \$50,000.

### A Cue-rising Death.

RUSHVILLE, IND., November 6.—Lord Kennedy, aged twenty-four, killed Ed. Barber, aged twenty-three, with a billiard cue, in Kirk's saloon, last night. Kennedy came in, walked around the table where Barber was playing, picked up a cue and struck Barber on the head with it, killing him instantly. Kennedy has been arrested.

### Sudden Death.

WILLIAMSBURG, VA., November 6.—Mr. John R. Coupland, one of our most estimable citizens, died this morning about half past 11 o'clock from congestion of the brain. His sickness was of short duration and very sudden.

### Death on the Rail.

CLEVELAND, O., November 6.—Robert Vaughan, a farmer, and his adopted son, while driving across the Cleveland and Pittsburg railroad track early this morning, at the White House road, in the southern part of this city, were struck by the fast St. Louis express. The men were both picked up dead, but without a bruise. The horses were terribly mangled, and the wagon was reduced to splinters. The engineer tried to stop, but saw the farmers too late.

### A Foolish Suicide.

NEW YORK, November 6.—Dr. Ralph Stone, a young physician attached to the Flatbush Hospital, at Flatbush, L. I., committed suicide by shooting himself yesterday. He had little confidence in himself and was fearful of making a mistake in his work. His body was forwarded to his home at Norristown, Pa., to-day.

### The Child of the Confederacy in New York.

NEW YORK, November 6.—Miss Winnie Davis was the cynosure of many eyes this morning. She was enjoying her first breakfast in the city at the New York Hotel. General Anderson and wife and Mr. Tom Emery and wife formed a circle at a table with Miss Davis.

### King Cotton.

NEW YORK, November 6.—The total visible supply of cotton for the world is 2,036,126 bales, of which 1,691,626 bales are American, against 2,105,367 and 1,840,167 bales respectively last year. The receipts at all interior towns are 203,736 bales; receipts from plantations, 322,352 bales; crop in sight, 2,035,176 bales.

### Heavy Peach-Blows.

LIMA, OHIO, November 6.—Several unknown men entered the house of Richard Peach last night and beat him over the head with clubs until he was insensible. They then robbed him of \$400 and left. Peach's injuries are possibly fatal.

### Met His Match.

YOUNGSTOWN, OHIO, November 6.—A three-year-old son of William Black, of Lansingville, while playing with matches last night set his clothes on fire, and was so badly burned that he died.

The President will leave on the afternoon train for Boston to-day, and will be accompanied by Secretaries Bayard, Whitney, Lamar, and Colonel Lamont.

### The Terrible Tramp.

ANNEVILLE, PA., November 6.—A gang of ten desperate tramps, full of liquor, entered the saloon of Peter Bachman Thursday night and made an assault on the proprietor and a few other men who were there. An alarm summoned fifty determined citizens, who came armed, and a desperate conflict ensued. Five men were seriously cut and otherwise wounded.

### A Strawberry Story.

SPRINGFIELD, O., November 6.—The long spell of Indian summer in Central Ohio has ripened a second crop of strawberries and brought violets and lilacs into full bloom in some places—a circumstance never before known here in November. The berries are of good flavor and sell for thirty cents per quart.

### LATEST FOREIGN NEWS.

#### Austria and Bulgaria.

BUDA-PESTH, November 6.—The Emperor Francis Joseph in his address to the delegates to-day declared that Austria was united with the other signatory powers to the treaty of Berlin in an effort to localize the Bulgarian disturbances; that the powers would find a way to re-establish law and order in Bulgaria, and that they hoped to restore the legal constitution to the Bulgarians soon, making allowance for the lawful aspirations of the Bulgarians consistent with the interests of Austria.

#### Wrecked on the Coast.

LONDON, November 6.—The storm which broke over the lake district in England yesterday has spread throughout Great Britain, and an immense amount of damage to property and shipping is already reported. The steamer Janet, from Dundee, has been wrecked at Eyemouth and three persons drowned. A boat and wreckage has been washed ashore on the Cornwall coast. The boat had "Steamship Swift-Sure" marked upon it. The Newcastle steamer Lord Jeffrey is overdue, and it is believed that she is lost.

#### A Roumanian Row.

BUCHAREST, November 6.—Dispatches received here from Russian sources allege that movements similar to that by which the town of Bourgas was handed over to Russian rule have taken place in other towns throughout Roumania.

#### Aveling and George.

Dr. Aveling, the English Socialist, said yesterday in Chicago that Henry George had been forced into Socialism in its broader sense as the campaign in New York city went on, and that he must still further widen out or be dropped. This is one of the sources of danger to the Labor party. A man is liable to start in a mild reformer and wind up a ranting Socialist or Anarchist.—*New York World*, 6th.

### New York Stock Market.

REVIEW.  
NEW YORK, November 6.—Instead of being sellers, as of late, foreign houses were buyers of stocks this morning to a moderate extent, and prices generally were firm, and inclined to advance. The chief feature was an excited market in Richmond Terminal stock, tended somewhat to distract attention from the rest of the market. Bank statements showed a loss in the reserve, but this had no effect worthy of notice, and, in fact, the best buying of the day set in shortly after its publication. The strength of St. Paul, and also of the Vanderbilt stocks, has been very remarkable, and unless we are much mistaken there are strong signs of higher prices. Traders sold the market off late in the day, but it quickly recovered and closed generally steady. Money, 6 per cent.

### A CARD.

Dr. Bryce's Reply to Mr. Mullen.—Almost an Unnecessary Notice.

To the Editor of The Times:

Accidentally I have seen a copy of the *Labor Herald* of November 6th, containing quite a choice denunciation of myself by Mr. William H. Mullen, a printer of this city. The relations between myself and Mr. Mullen are hardly such as to warrant the expressions of familiarity with which he has seen fit to embellish his denial of my statement on oath. If Mr. Mullen came up to my estimate of a gentleman, or if he had any visible property, I should notice him in another way. Inasmuch, however, as the circumstances are different, I care nothing for the value of his statements, either verbally or in print.

Mr. Mullen's whole article is a misrepresentation of the facts, and I am perfectly willing to rest the matter on the question of veracity between Mr. Mullen and myself with the community in which we reside.

In reference to my mental condition, to which Mr. Mullen alludes, I am amused, as, to put it mildly, it bears falsity on its face; for the *Southern Clinic*, issued monthly for the past nine years and edited solely by myself, and a great deal of it set up by Mr. Mullen in print, would indicate that my mind was sufficiently clear to furnish a literary production subscribed to and supported by the most accomplished alienists and scientific members of one of the learned professions. But, of course, it would be expected that a great deal of scientific matter handed to a common workman would appear as the effusions of a lunatic, because to those of contracted intellect many things appear mysterious. If we were disposed to argue this question, we could prove that Mr. Mullen's "best friend," Mr. Robert Whittier, to whom he alludes, had from our lips the substance of our affidavit two years ago. Mr. Mullen had an opportunity then to deny these things, or else his "best friend" knew that Mr. Mullen was being slandered and failed to repel the same. To be abused by such men as Mr. Mullen *et id genus* is rather more complimentary than otherwise. C. A. BRYCE, M. D.
